

PRODUCT INFORMATION

Replacement for Onan® P/N 332-1268 VR-21 Regulator Control Board (FS P/N 56-1268-00)

LIST OF FEATURES:

- Can also be used to replace Onan® P/N 332-1264
- Mounting footprint and terminal locations identical to original board. No modification required to install.
- Heavy conformal coating applied for moisture and vibration resistance.
- Upgraded components used throughout the board.
- User-replaceable fuses.
- Rugged barrier strip and improved, more durable power resistors.
- Two-Year Warranty. Board is fully rebuildable. *(See reverse for Warranty & other details)*

MAINTENANCE SUGGESTION:

When replacing control board we also recommend replacing
SCR Pack to ensure proper operation. (Stocked by FSI P/N 56-1268/1956-SCR)
